05.19.02.00.08 ; 05.19.02.00.09 ; 05.19.02.00.10

These release notes are organized into groupings, based on the menu path of the project. The first level is Federal reporting, State reporting (or related), or General Updates. Within those groupings, notes are divided between Systemwide, Business Systems, and Student Systems. Within those areas, they are divided into module groups (menu paths with similar data areas), then sorted by menu path.

For ease of viewing, and utilization of bookmarks, we recommend that you download and save this file, and open it locally with your PDF viewer, as some browsers may not support viewing of bookmarks (Chrome). In Firefox, you can access the bookmarks by clicking on the Toggle Sidebar icon in the upper left corner of the reading pane.

Once downloaded, to navigate, you should be able to use your pdf reader's bookmarks in the left slider bar. By clicking on the bookmark icon, the bookmarks will display. The actual display may vary depending on your pdf viewer and version.

You can expand an area by clicking on the "+", collapse it by clicking on the "-" to the left of the heading. You can use the slider bar in the bookmark window to navigate and select any section to view it. Depending on your pdf reader, you may be able to select the area, right mouse click, and print that section in one action.

## **Federal Reporting**

### ***Federal Reporting***

#### **Business Management System - Federal Reporting - Business Management System**

#### ***Account Management***

##### **Financial Management\Account Management\Year End**

##### **Financial Management\Account Management\Year End\Account Management\1099M Printing**

- FM\AM\YE\AM\PI (PaC)

- 1 - Corrected PDF files are now available for those customers that are printing 1099M forms at the February 2019 Release Addendum 01 or higher. **Enhancement** Proj#3991379

##### **Financial Management\Account Management\Year End\Account Management\1099M Processing**

- FM\AM\YE\AM\PR (PaC)

- 1 - The 1099M import process now allows for amounts in boxes 1 - 8, 10, 13 and 14. **FL-UG Enhancement** Proj#3598767

Import files with multiple box amounts must be tab-delimited and should follow the existing import layout. The amounts for boxes 1 - 8, 10, 13 and 14 should occur in fields 19 - 28 after the box 7 amount (field 18). Boxes that do not apply should have zero amounts in their respective fields.

Note that files for the existing import layout ending with box 7 (field 18) are not required to have fields 19 - 28 populated.

### ***Employee***

#### **Web Human Resources\Employee\Product Setup**

##### **Web Human Resources\Employee\Product Setup\Utilities\ACA Utilities\ACA Ongoing Category**

##### **Audit**

- WH\EP\PS\UT\AC\OC

- 1 - When processing 12-month categories, the ACA Ongoing Category Audit will calculate the initial start date, rather than rely on the stored date. The audit will also no longer create missing records for category codes that are not currently marked as active. **Correction** Proj#4003953

**Web Human Resources\Federal-State Reporting\Federal Reporting  
Web Human Resources\Federal-State Reporting\Federal Reporting \Civil Rights Data  
Collection\CRDC Processing\Extract CRDC Data**

- WH\SR\FR\FO\CP\ER

- 1 - When processing the CRDC Extract, the process will now trim off additional spaces in Time Off codes for the STAF 3 - Teacher Absenteeism question so the process correctly identifies which Time Off codes to use during the calculations. No additional user steps are necessary to activate this change. **Correction**  
Proj#4008344
- 2 - For Civil Rights Data Collection, there is now validation for an employee's certification issue date and certification expiration date. If a person's certification was issued after the entered As Of date, or expired before it, the person will not be reported as certified. Only if the As Of date entered on the extraction template falls within the certification date range will the employee be considered certified. **Correction**  
Proj#4017205
- 3 - The CRDC STAF-3 Teacher Absenteeism now correctly calculates each day absent whether the employee is Full Time or Part Time. No additional user steps are necessary to activate this change. **Correction**  
Proj#3986314
- 4 - When processing the Civil Rights Data Collection (CRDC) for 2017-2018, the extract now correctly identifies the salaries that may be split between State/Local and Federal. The process will look at the Account Distribution on the Employee Management Assignment to compare with the account ranges entered on the CRDC Extract screen to populate the "EXPD" sections. No additional user steps are necessary to activate these changes. **Correction**  
Proj#3977244

**Payroll**

**Human Resources\Payroll\Reporting**

**Human Resources\Payroll\Reporting\Payroll\State - Federal\Unemployment Compensation**

- HR\PA\RE\PA\SF\UC (PaC)

- 1 - The Indiana validation has been removed for states other than Indiana in the general save. **Correction**  
Proj#4023726

**Human Resources\Payroll\Utilities**

**Human Resources\Payroll\Utilities\Payroll\Tables\Payroll Tables**

- HR\PA\UT\PA\TA\PT (PaC)

- 1 - The tax table for Alabama has been updated for 2019. The Standard Deductions are the only changes that have been made. **Enhancement**  
Proj#3995452

**Product Setup**

**System Admin\Financial Management\FM Configuration**

**System Admin\Financial Management\FM Configuration**

- SA\FM\FM (PaC)

- 1 - When changing the tax year, it is no longer possible to set the year to a value that does not exist or is not active in the FICA table. In addition, when running the FICA system table load, the ded/ben update process will be run automatically. **Enhancement**  
Proj#3950646

## Student Management System - Federal Reporting - Student Management System

### Web Student Management\Federal-State Reporting\Federal Reporting

#### Web Student Management\Federal-State Reporting\Federal Reporting\Civil Rights Data Collection\CRDC Processing\Extract Civil Rights Data

- WS\SR\FR\FO\CP\EC

- 1 - The CRDC Extract process was updated to no longer pull courses that were not active as of the Count Date if the school is not set up to use the Block Scheduling option. This change does not affect Algebra I. **Enhancement**  
Proj#4029971
- 2 - The Federal CRDC Extract process was updated to properly pull LEA/Non-LEA students for LEA SSPR-1 and SSPR-2. Before this update, students whose school was marked as a Non-LEA school were not pulling for the LEA SSPR-1 and SSPR-2. **Enhancement**  
Proj#4012031
- 3 - The Federal CRDC RETN section was updated to only report students who did not earn enough credits as retained, if they were enrolled on the last day of the calendar. If districts withdraw their students prior to the last day of the calendar, they can use the new Retention Days field on the CRDC Extract range screen to adjust the count date. Also, students who were promoted mid-year, but retained at the end of the year, will now report the School LEAID and Grade Level from the retained Entry/Withdrawal record. **Enhancement**  
Proj#3994144
- 4 - The following CRDC sections were updated: **Enhancement**  
Proj#3986847
  1. Discipline sections (DISC) that use action code selections will now use the Offense Date rather than the Action Date for determining enrollment in a school, because an action date may occur after the corresponding enrollment has ended.
  2. Course sections (COUR) were updated to properly pull a student taking a subset of a course. For example, students enrolled in a year-long Algebra I course, but only scheduled during semester 1, were not reporting.
- 5 - The CRDC RETN-02 section has been updated to properly report students in the appropriate School LEAID if they switched schools mid-year. Students will be reported in the school where the retention occurred. Previously, the student was reporting in the school that they were enrolled in at the time of the count date instead of the school they were retained in. **Correction**  
Proj#3991381
- 6 - The CRDC RETN-02 section is now displaying totals and headings by Grade Level and storing totals as expected. Before, all Grade Levels were showing in one Totals area and one Details area, and students that were retained due to credits were not being pulled. **Correction**  
Proj#3976747

#### Web Student Management\Federal-State Reporting\Federal Reporting\Civil Rights Data Collection\CRDC Processing\Export Civil Rights Data

- WS\SR\FR\FO\CP\EX

- 1 - The CRDC Element ID for COUR-16 has been updated from "SCH\_COMPCERT\_CSCI" to "SCH\_COMPCCERT\_CSCI." If data was previously extracted for this module question, data will need to be re-extracted because of this change. **Enhancement**

1 - The Flexible Attendance Register has been updated to cap Eligible Minutes to 600 per day, instead of per reporting period. Additionally, CTE (Career and Technical Education) minutes will be limited to six hours (360 minutes) per student per day. Excess Minutes in Instructional Setting fields will calculate based on a combination of CTE minutes per day and their Special Education Instructional Setting. Specifically, CTE minutes are converted to hours, added to the Instructional Setting multiplier, and then converted back to minutes where any amount over 360 is excess, and reported appropriately for PEIMS as the Excess Minutes in Instructional Setting. In addition to these changes to the Flexible Attendance Daily Register, the Contact Hours Report was updated to use the changed data from the Flex Daily Register, updating Table I for Special Education and Vocational Education. This also includes changes to Table II to display Vocational Education data in minutes, and corrections to Table III to display data in days and hours.
